

## M550

### Self-contained LED lantern, 1 to 2 NM range

This miniature solar LED marine lantern offers leveraging custom optics, high-efficiency solar panels and premium materials. Now with replaceable, recyclable batteries this lantern provides excellent value and reliable operation over the long term. Battery life expectancy is five years with product life up to 10 years and a three-year warranty. Ideal for marine aids-to-navigation, marina lighting, dock lighting, and port lighting. To view performance in your installation location, visit [www.sabik-marine.com](http://www.sabik-marine.com) ->Marine Selector Tool

- 40 user-adjustable flash patterns and programmable intensities
- Replaceable, recyclable, high-temperature-rated NiMH AA batteries
- Automatic Light Control (ALC) 2.0; achieve optimal intensities throughout the year
- Premium grade, UV resistant polycarbonate body and lens material
- IP 68 rated
- Ventilated battery compartment

**Optical performance**

## M650H

**Self-contained LED lantern for buoys and minor beacons, 2 to 4 NM Range**

The M650H is a cost-effective, self-contained, high-performance, low-maintenance and easy-to-install solar LED marine lantern. The M650H features a replaceable battery pack that extends the service life beyond five years, reducing the total cost of ownership. Applications include: marine aids-to-navigation marking, marina lighting, dock lighting, and port lighting. To view performance in your installation location, visit [www.sabik-marine.com](http://www.sabik-marine.com) ->Marine Selector Tool

- **Standard IALA colours**  
red, green, white, yellow, blue
- **High-efficiency solar cells with bypass and blocking diode function. Maximum power point tracking (MPPT) for optimal energy collection**
- **Premium grade UV resistant, polycarbonate/ polysiloxane co-polymer body and lens material**
- **Colour-specific temperature corrected LED drivers provide consistent intensity under all operating conditions**
- **IP 68 rated. Double O-ring sealing with waterproof vent**
- **SLA battery**
- **Ventilated battery compartment**
- **Adjustable intensity and range**
- **Vertical divergence > 8° (FWHM)**
- **Programmable with On-Board User Interface, USB port, or optional wireless IR-Programmer**
- **Integrated event-log**
- **Optional ON/OFF switch**
- **Optional external charger**
- **Optional integrated GPS synchronization**

## SC 110

Marine self-contained LED light for buoys, beacons, marinas and aquaculture farms

SC 110 is a durable short range LED lantern built from polycarbonate and including an integrated solar power system. This lantern is delivered with Nickel metal hydride battery. It has more than 6 years lifetime. The lantern is available in 2 and 3 NM versions.

- Range up to 4 NM ( $T_c = 0.74$ )  
4,5 NM ( $T_c = 0.85$ )
- Standard IALA colours Red, Green, White, Yellow
- Produced of durable polycarbonate plastic
- Available with Lithium-ion or NiMH batteries
- Internal calendar, light can be switched off for winter
- Adjustable intensity and range
- Vertical divergence  $8^\circ @ 50\%$  ( $\pm 1^\circ$ ) of peak intensity
- Programmable with Sabik standard IR programming devices
- Integrated event log (Black box function) for 365 days
- The lantern is delivered in sleep mode. It automatically wakes up when unpacked and light is detected
- Optionally integrated GPS synchronization
- Optionally integrated GSM remote monitoring

**Lens**  
Bird deterred top design.

**Solar panels**  
Optionally 1 (2NM) or 4 (3NM) solar panels.

**Battery**  
Optionally NiMH or LiFePO<sub>4</sub> batteries.

**Sabik Easy Programmer**  
User friendly and compact wireless two-way programmer.

**Programming with PC**  
Using Sabik USB interface.

**Storage charging**  
With external charger.

**Installation**  
The bottom plate of the SC 110 supports installation on structure using 3 or 4 x M12 on a 200 mm diameter or 3 x M8 on a 150 mm diameter.

**PTFE breathing**  
Vent for pressure release in the bottom of the product.

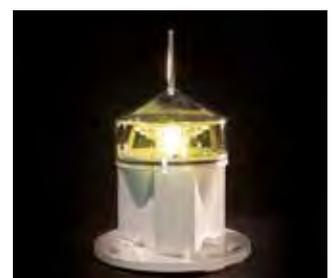

**White**

**Red**

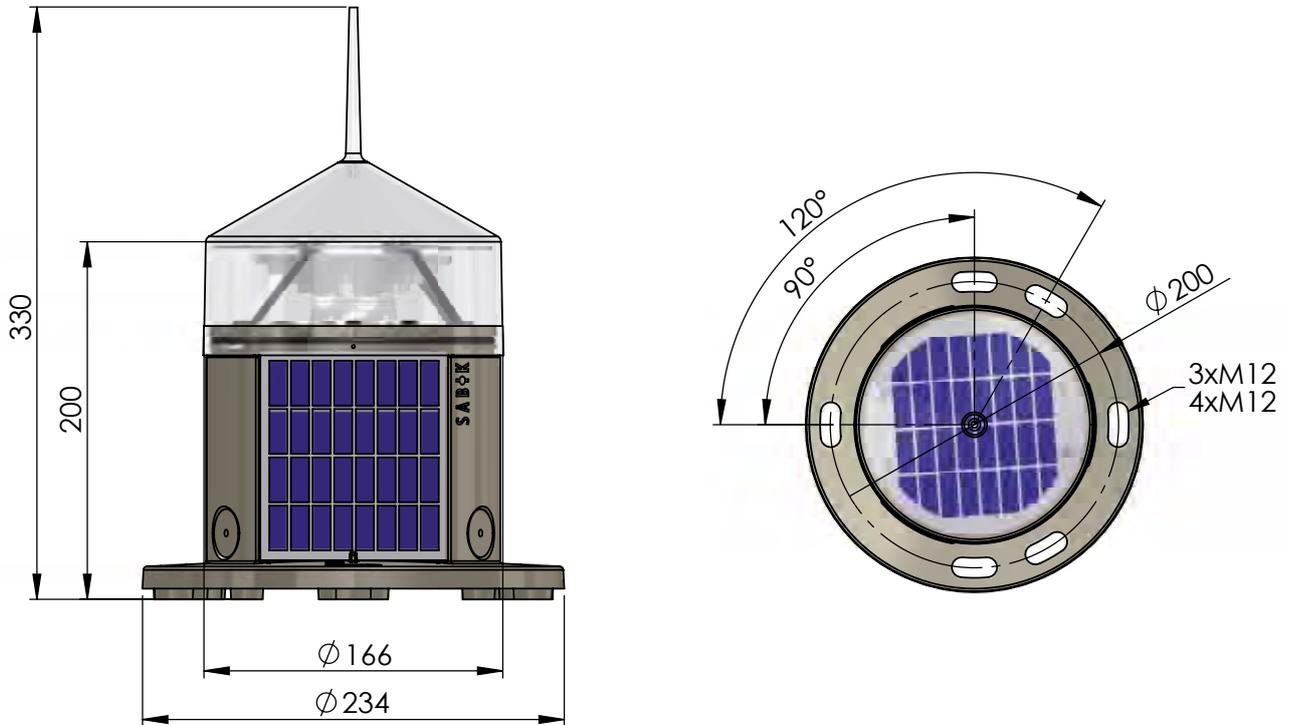

**Green**

**Yellow**

## M660

**Self-contained LED lantern for buoys and minor beacons, up to 4 NM Range**

The M660 is a high-performance, longlife, easy-to-use and cost-effective self-contained solar LED marine lantern. The M660 features a Li-ion battery pack that extends the service life of the lantern up to eight years. M660 has four different mounting options and can be controlled with Bluetooth® Control. ## M850

**Self-contained LED lantern,  
3 to 6+ NM Range**

The M850 combines a compact, high-efficiency solar engine with premium components and a rugged design for best-in-class performance at an optimal price. This lantern is suitable for use in most solar locations. To view performance in your installation location, visit [www.sabik-marine.com](http://www.sabik-marine.com) ->Marine Selector Tool

- Option for standard or wide divergences (for fixed or floating applications)
- Multiple cost-effective battery pack options suitable for a wide variety of installation locations
- Built-in calendar function for automatic deactivation during off-season months
- Top-mounted 4-character LED display with simple »tap to activate« functionality
- Premium grade, UV resistant polycarbonate lens material
- Environmentally friendly, super durable powder-coated aluminium chassis
- Adjustable intensity and range
- IP 68 rated
- GPS synchronized flash option
- Remote monitoring options available

## M860

**Self-contained LED lantern,  
4 to 7+ NM Range**

With a durable, large-format solar engine, the M860 is engineered for consistent, reliable performance at remote installations and in challenging insolation locations. This is a premium and full-featured lantern that is suitable for achieving longer ranges in challenging insolation locations. To view performance in your installation location, visit

[www.sabik-marine.com](http://www.sabik-marine.com) ->Marine Selector Tool

## VLB-5X-SS

Self-contained LED lantern for buoys and beacons up to 5,5 NM range

The VLB-5X-SS includes the latest LED technology, new battery technology, and an advanced charging algorithm, which supports the battery to perform well in extreme weather conditions.

Benefits include:

- Optical range – 5.5 NM
- Battery technology and advanced charging algorithm
- Excellent battery life in hot climates
- Excellent battery capacity in cold climates
- The 5X battery will continue to charge between  $-40^{\circ}\text{C}$  and  $65^{\circ}\text{C}$
- Five colours meeting IALA chromaticity requirements
- Light intensity automatically adjusts with flash character setting (Schmidt-Clausen)
- 12 options for day to night transition light levels
- More than 256 flash characters
- Calendar control of beacon operation
- Alarm output (system notification)
- Available with GPS synchronization

## Optical Performance

### Maximum peak intensity

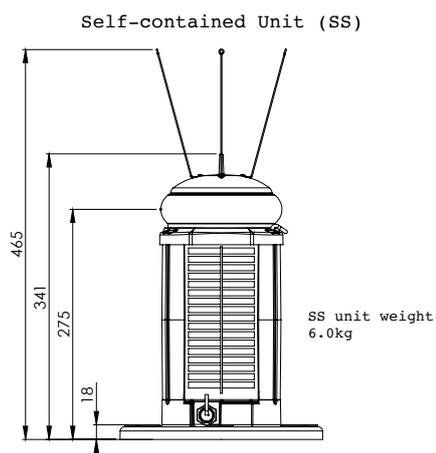

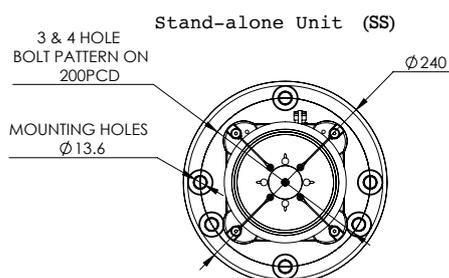

7°	177cd	177cd	177cd	157cd
----	-------	-------	-------	-------

## Optical specification

Light source	High Power Light Emitting Diode (LED)
Vertical divergence	7° @ 50% peak
Temperature control	LEDs monitored for constant intensity control and over temperature protection

## Main Technical Specification

Nominal Range	Up to 5.5 NM
Lens	Moulded acrylic (PMMA)
Base	Injection Moulded UV Stabilized Nylon 6/6 with 30% glass fill
Body	Injection Moulded UV Stabilized Nylon 6/6 with 30% glass fill
Designed service life	10 years (excluding battery)
Weight	6 kg
Flash character	256 standard characters plus custom character
Temperature range	-40° – +50°C
Battery capacity	12 Ah
Voltage	12 VDC (9-18 VDC)
Degree of protection	IP 68

## Order Overview VLB-5X-SS

### Option matrix

DP-AL-SW	Dataport, alarm/monitor & wire synch factory option
GS	Internal GPS sync module as factory option

## VP LED

### Buoy LED lantern

The VP LED is an LED lantern designed to be used in moderate ice conditions. It has a proven record of surviving the crushing pressure and dynamic forces of ice. VP LED is mainly used on plastic ice spars and buoys when a lightweight unit is important.

- Marine grade aluminium housing
- Designed to be fully waterproof, can sustain extensive submersion
- Integrates firmly onto buoy top and presents a very low profile to lateral forces from ice
- Lantern can be removed for battery replacement
- Range up to 6 NM ( $T_c = 0,74$ )
- Standard IALA colours red, green, white and yellow
- Extremely low power consumption, ideal for primary battery operation
- Integrated flasher with day light switch
- Adjustable intensity and range
- Programmable with Sabik standard IR programming devices
- Integrated 365 day event log
- Optional integrated GPS synchronization
- Optional integrated GSM Remote monitoring
- Optional Bluetooth control

## LED 155

### Marine LED lantern for buoys and minor beacons

LED 155 is a general purpose LED lantern commonly used on both fixed and floating structures. The lantern is modular in design. It can be configured with two different vertical divergencies and 1-3 tiers depending on operational requirements.

- Range up to 8 NM at  $T_c = 0,74$   
(12 NM at  $T_c = 0,85$ )
- Standard IALA colours  
Red, Green, White, Yellow and Blue/Yellow
- Rugged aluminium housing for installation in harsh marine environments
- Extremely low power consumption, suitable for solar and battery operation
- Integrated flasher with day-night switch
- Integrated 16A solar panel charger using pulse width modulation
- Adjustable intensity and range
- Available with narrow (6°) or wide (10°) vertical divergence
- Programmable with Sabik standard IR programming devices
- Integrated event log for 365 days
- Optional integrated GPS synchronization
- Optional integrated GSM Remote monitoring
- Optional Bluetooth control

## LED 160

Full range lantern for fixed and floating installations

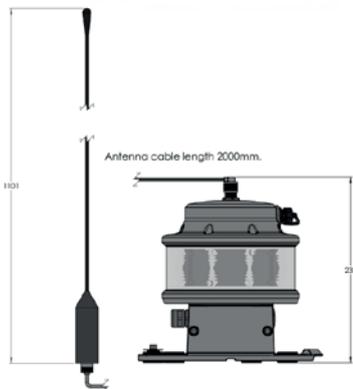

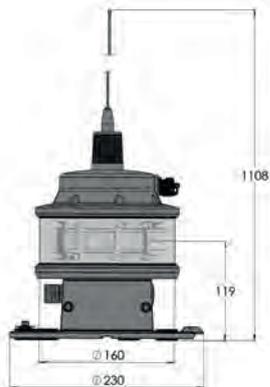

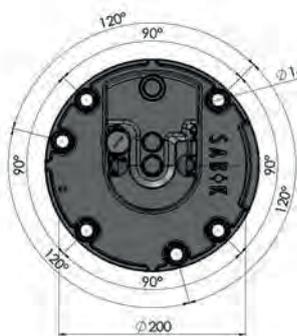

This all-round LED 160 lantern has world-class optical performance with options for buoys and fixed installations. Three different lens options available covering a range from 3 NM up to 12NM (Tc = 0,74)

- Standard IALA colours  
red, green, white, yellow and blue
- Best in class optical performance
- New designed rugged injection moulded aluminium housing
- Easy field installation thanks to the integrated junction box with 3 cable entries
- Extremely low power consumption, suitable for solar and battery operation
- Integrated 16A solar panel charger
- Adjustable intensity and range
- The lantern is available in three different versions. LED 160 with Narrow 5° and with Wide 10° vertical divergence, and the LED 160H with a 2,5° vertical divergence
- Programmable with Sabik IR programmer or with Bluetooth® control from up to 50m distance
- Optionally integrated GPS synchronization
- Optionally integrated GSM/GPS remote monitoring
- Available with integrated AIS

### Integrated AIS

- Available in two models: Type 1 (FATDMA) and Type 3 (RATDMA)
- AIS transponder integrated in the top part of the lantern
- Integrated GPS antenna and external VHF antenna included in the delivery
- Extremely low power consumption when used as Type 1 <45mW with 1 message/ 3 minutes (about 0,09 Ah/day)
- Support messages: 6 and 21
- Supports up to 10 virtual Aton:s

### Product code example: LED-160-NG-9L

- **LED-160-NG** is Sabik code for LED 160 with narrow lens in green
- **9L** is a selection of option 9 integrated GSM/GPS monitoring

## LO 200M

### Medium Intensity LED Range Light

The LO 200M signal is designed for applications requiring medium and long range directional light, such as range lights and port entry signals.

- Equipped with a high intensity power LED and especially designed optics
- Robust aluminium IP 66 housing
- Visual range up to 14NM (Tc = 0,74)
- Standard IALA colours red, green, white and yellow
- Extremely low power consumption, suitable for solar and battery operation
- Vertical divergence 8° @ 50% of peak intensity
- Integrated flasher with 16 A solar panel charger
- Adjustable intensity and range
- Programmable with Sabik standard IR programming devices
- Optional integrated GPS synchronization
- Optional integrated GSM remote monitoring
- Equipped with Bluetooth programming

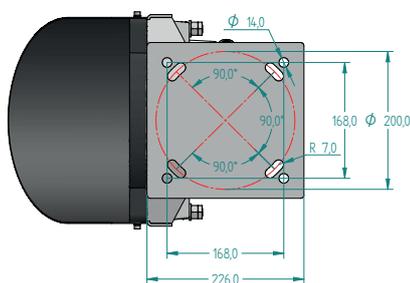

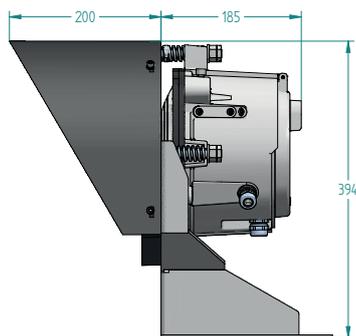

## Optical performance

## M840

### Component lantern 4 to 7 NM range, input 12/24VDC

GPS sync, Bluetooth control and Satellite monitoring options

The M840 is a premium and full featured standalone component lantern for ranges up to 7 NM. It can be used both in fixed and floating installations. The lantern is powered via external 12 or 24 VDC source. With low power consumption the M840 is well suited for off-grid installations. Programming can be done with IR programmer or with Sabik Bluetooth Control from up to 50 meters away. The Lantern supports satellite remote monitoring and GPS Synchronization. Well tested and field proven design requires no regular maintenance except for external cleaning and has 10+ years design life in harsh marine environment.

- **Trusted by competent authorities around the globe**
- **Consistent and reliable performance in compact, durable and lightweight package**
- **Highly reliable, tested and well-proven design**
- **Supports remote monitoring, BT programming and automatic off-season deactivation**
- **Conforms to IALA recommendations for lit AtoN-equipment**
- **Premium grade, UV resistant polycarbonate lens material**
- **Long lasting and highly durable IP68 rated powder-coated aluminum chassis**

## MPV LED

### Heavy duty ice buoy LED lantern

The MPV LED is an LED lantern designed to be used in most severe ice conditions, and is capable of surviving the crushing pressure and dynamic forces of ice in winter conditions.

- Rugged bronze alloy housing for installation in harsh marine environments
- Designed to be fully waterproof – can withstand submersion down to 100 meters
- Integrates firmly onto buoy top – presents a very low profile to lateral forces from ice
- Enables battery replacement through lantern without removing the lantern from buoy
- Visual range up to 6 NM ( $T_c = 0,74$ )
- Standard IALA colours  
Red, Green, White and Yellow
- Extremely low power consumption; ideal for primary battery operation
- Integrated flasher with day light switch
- Adjustable intensity and range
- Programmable with Sabik standard IR programming devices
- Integrated 365 day event log
- Optional integrated GPS synchronization
- Optional integrated GSM Remote monitoring

## ODSL 200

### Omnidirectional LED sector light

ODSL 200 omnidirectional sector light is an innovative, compact sector light with accurate sector borders. This light is equipped with a replaceable LED optical unit. The range of the light, depending on colour and flash character, is between 6 and 10 NM ( $T_c = 0,74$ ).

- Sectors are verified at Sabik's photometric range prior to delivery
- Field installation is easy thanks to the adjustable base
- Precision alignment, at site, can be done with a gun sight (has to be ordered separately)
- After installation sector alignments remain unchanged even if the LED optical unit is replaced
- Light can be delivered with an external weather cover
- The standard sector light is available as a 3, 6 or 12 layer model
- Small area of uncertainty between the sectors, typically less than  $0,5^\circ$
- Integrated flasher with daylight switch and a 16 A solar panel charger
- Programmable with Sabik IR programming devices or Bluetooth Control
- This light can be equipped with remote monitoring and synchronization
- Patented omnidirectional LED sector light technology

## SC 160 I

**Self-contained LED lantern for buoys and beacons**

SC 160 I is a self-contained medium range LED lantern with best-in-class optical performance for fixed and floating structures. The lantern includes solar panels, battery and charge controller. This lantern is designed for harsh marine environments and for long uninterrupted operation.

- Range up to 8 NM (Tc=0,74) 11 NM (Tc=0,85) depending on geographical location
- Standard IALA colours red, green, white, yellow
- Lantern made of rugged injection moulded aluminium housing and UV resistant polyethylene body
- Integrated flasher with day-light switch and solar charger
- Standard VRLA battery and ventilated battery compartment , Li-ion battery optional
- Solar modules covered with tempered glass
- Adjustable intensity and range
- Available with narrow (5°) or wide (10°) vertical divergence
- Programmable with Bluetooth® Control mobile app up to 50 m radius
- Other wireless programming options available such as Sabik Easy Programmer or PC/USB interface
- Integrated event log for 365 days
- Optional integrated GPS synchronization and GSM Remote monitoring
- Available with AIS
- External charge port or external solar module

### Integrated AIS

- Available in two models: Type 1 (FATDMA) and Type 3 (RATDMA)
- AIS transponder integrated in the top part of the lantern
- Integrated GPS antenna and external VHF antenna included in the delivery
- Extremely low power consumption when used as Type 1 <45mW with 1 message/3 minutes (about 0,09 Ah/day)
- Support messages: 6 and 21
- Supports up to 10 virtual Aton:s

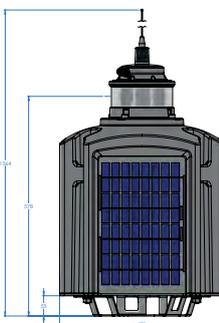

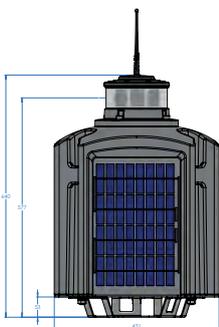

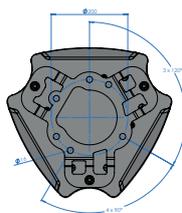

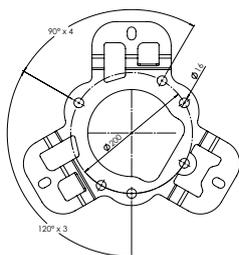

## Optical Performance

## SC 160 II

**Self-contained LED lantern for buoys and beacons**

SC 160 II is a self-contained LED lantern with best in class optical performance for fixed and floating structures with longer range. The lantern includes solar panels, battery and charge controller. This lantern is designed for harsh marine environments and for long uninterrupted operation.

- Range up to 10 NM (Tc=0,74) 14 NM (Tc=0,85) depending on geographical location
- Standard IALA colours red, green, white, yellow
- Lantern made of rugged injection moulded aluminium housing and body of UV resistant polyethylene
- Integrated flasher with day-light switch and solar charger
- Standard VRLA battery and ventilated battery compartment
- Adjustable intensity and range
- Available with narrow (5°) or wide (10°) vertical divergence
- Programmable with Bluetooth Control mobile app up to 50 m radius
- Other wireless programming options available such as Sabik Easy Programmer or PC/USB interface
- Integrated event log for 365 days
- Optionally integrated GPS synchronization and GSM Remote monitoring
- External charge port or external solar module
- Available with AIS option

### Integrated AIS

- Available in two models: Type 1 (FATDMA) and Type 3 (RATDMA)
- AIS transponder integrated in the top part of the lantern
- Integrated GPS antenna and external VHF antenna included in the delivery
- Extremely low power consumption when used as Type 1 <45mW with 1 message/3 minutes (about 0,09 Ah/day)
- Support messages: 6 and 21

## VLB-5X-SA

**LED lantern for buoys and minor beacons up to 5,5 NM range**

VLB-5X-SA is a compact and durable lantern with an excellent performance. Thanks to the small size and low weight it is a good choice for light fixed structures and buoys.

Benefits include:

- **Optical range – 5.5 NM**
- **Five colours meeting IALA chromaticity requirements**
- **Light intensity automatically adjusts with flash character setting (Schmidt-Clausen)**
- **12 options for day to night transition light levels**
- **More than 256 flash characters**
- **Calendar control of beacon operation**
- **Alarm output (system notification)**
- **Available with GPS synchronization**

## Optical Performance

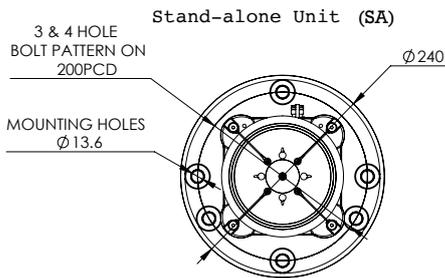

Maximum peak intensity				
7°	177cd	177cd	177cd	157cd

## Optical specification

Light source	High Power Light Emitting Diode (LED)
Vertical divergence	7 degrees @ 50% peak
Temperature control	LEDs monitored for constant intensity control and over temperature protection

## Main Technical Specification

Nominal Range	Up to 5.5 NM
Lens	Moulded acrylic (PMMA)
Base	Injection Moulded UV Stabilized Nylon 6/6 with 30% glass fill
Designed service life	10 years
Weight	1.0 kg
Flash character	256 standard characters plus custom character
Temperature range	-40° to +50°C
Voltage	12 VDC (9-18 VDC)
Solar charger	Integrated 2 amp * (no output cable supplied without order request)
Degree of protection	IP 68
Cable length	2 m / 6 m

## Order Overview VLB-5X-SA

### Option matrix

DP-AL-SW	Dataport, alarm/monitor & wire synch factory option
GS	Internal GPS sync module as factory option

## VLB-36X

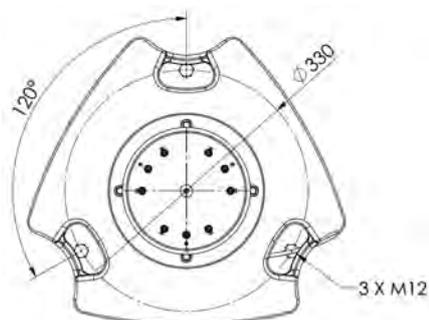

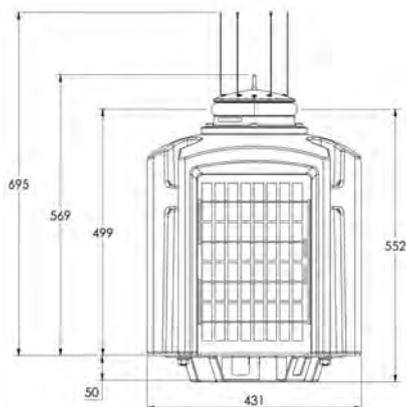

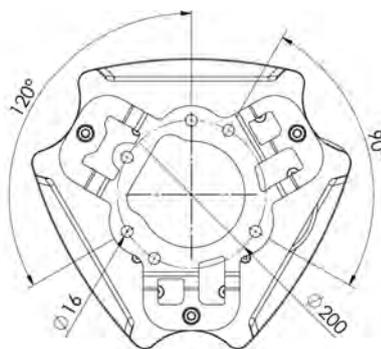

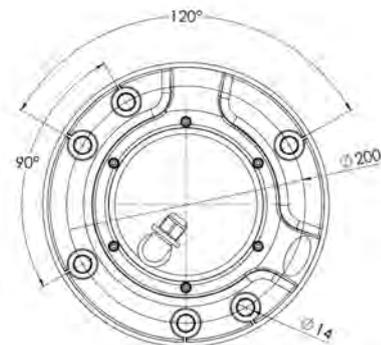

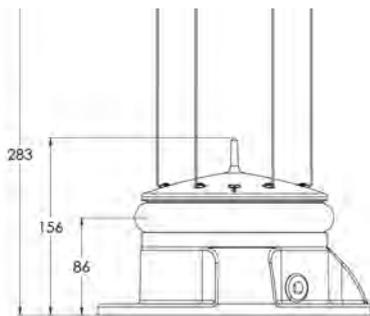

### Medium range lantern 4-7 NM

This 7 nautical mile marine beacon uses highly efficient optics and electronics providing best in class energy efficiency.

This level of efficiency significantly reduces the solar panel and battery requirement in standalone applications.

- 2 different vertical divergences to cover fixed and floating applications: 10° (ideal for buoys), 7° (for land/pole use)
- Available as standalone or self-contained with 30 Watts solar power
- The available colours are red, green, white and yellow
- The unique optical system utilises an acrylic lens to maximise the light capture from the LED's
- The LED's are precisely graded and placed to produce a light beam with minimum variation in intensity
- A switch mode regulator maintains the light output of the LEDs independent of input of voltage and temperature
- Programming is done using IR programmer
- Integrated GPS-sync available as option

**Optical Performance**

Maximum peak intensity				
7°	380cd	403cd	348cd	534cd
10°	320cd	352cd	265cd	395cd

**Optical specification**

## VLB-44X

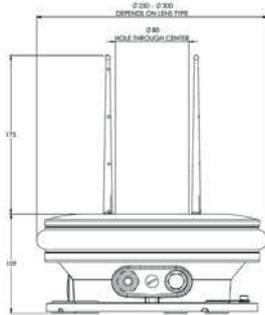

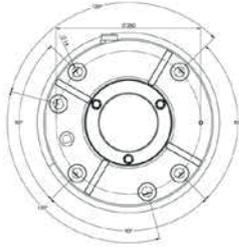

### Long range lantern 6-14 NM (1-3 tiers)

The VLB-44X lantern forms part of the LED marine lantern family. The use of highly efficient optics and electronics has resulted in state-of-the-art energy efficiency.

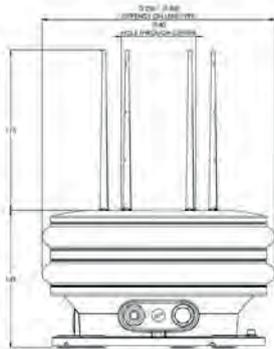

This level of efficiency significantly reduces the solar panel and battery requirements in standalone applications.

- Comes in 3 different vertical divergences to cover both fixed and floating applications: 10° (ideal for buoys), 5° (for land/pole use), 2.5° (for lighthouses)
- With 1 to 3 tiers, can be sized to match the range requirement of a particular application. Multiple units can be used to extend the range to 16 NM
- Available colours are red, green, white and yellow
- The unique optical system utilises an acrylic lens to maximise the light captured from the LED's
- The LED's are precisely graded and placed to produce a light beam with minimum variation in intensity
- A switch mode regulator maintains the light output of the LEDs independent of input of voltage and temperature

## VP LED

### Buoy LED lantern

The VP LED is an LED lantern designed to be used in moderate ice conditions. It has a proven record of surviving the crushing pressure and dynamic forces of ice. VP LED is mainly used on plastic ice spars and buoys when a lightweight unit is important.

- Marine grade aluminium housing
- Designed to be fully waterproof, can sustain extensive submersion
- Integrates firmly onto buoy top and presents a very low profile to lateral forces from ice
- Lantern can be removed for battery replacement
- Range up to 6 NM ( $T_c = 0,74$ )
- Standard IALA colours  
red, green, white and yellow
- Extremely low power consumption, ideal for primary battery operation
- Integrated flasher with day light switch
- Adjustable intensity and range
- Programmable with Sabik standard IR programming devices
- Integrated 365 day event log
- Optional integrated GPS synchronization
- Optional integrated GSM Remote monitoring
- Optional Bluetooth control

## VPL 110

### Buoy lantern

VPL 110 is a robust lantern with an outer polycarbonate cover to be used integrated into buoy applications. This lantern has very low power consumption and is equipped with GPS synchronization. LightGuard remote monitoring can be added as an option and advanced Bluetooth® Control app is also available for android and iOS mobile phones.

- **Adjustable intensity and range**
- **Integrated flasher with day and night switch**
- **Standard range: 4 NM at Tc = 0,74 (5 NM at Tc = 0,85)**
- **Available in standard IALA colours**
- **Vertical divergence 8° @ 50% ( $\pm 1^\circ$ ) of peak intensity**
- **GPS synchronization as standard**
- **Remote monitoring with LightGuard Monitor**
- **Programmable with Sabik standard IR programming devices**
- **Advanced Bluetooth® Control up to 50m available for android and iOS smart phones**

**Optical Performance**

Maximum fixed intensity

LightGuard GSM + GPS OPT 9H	Integrated GSM based monitoring including GSM/GPS antennas
Optical Feedback System OPT 1H	Integrated LED performance measurement
Shock & Tilt Sensor	Integrated 3-axis G sensor for tilt and shock sensing

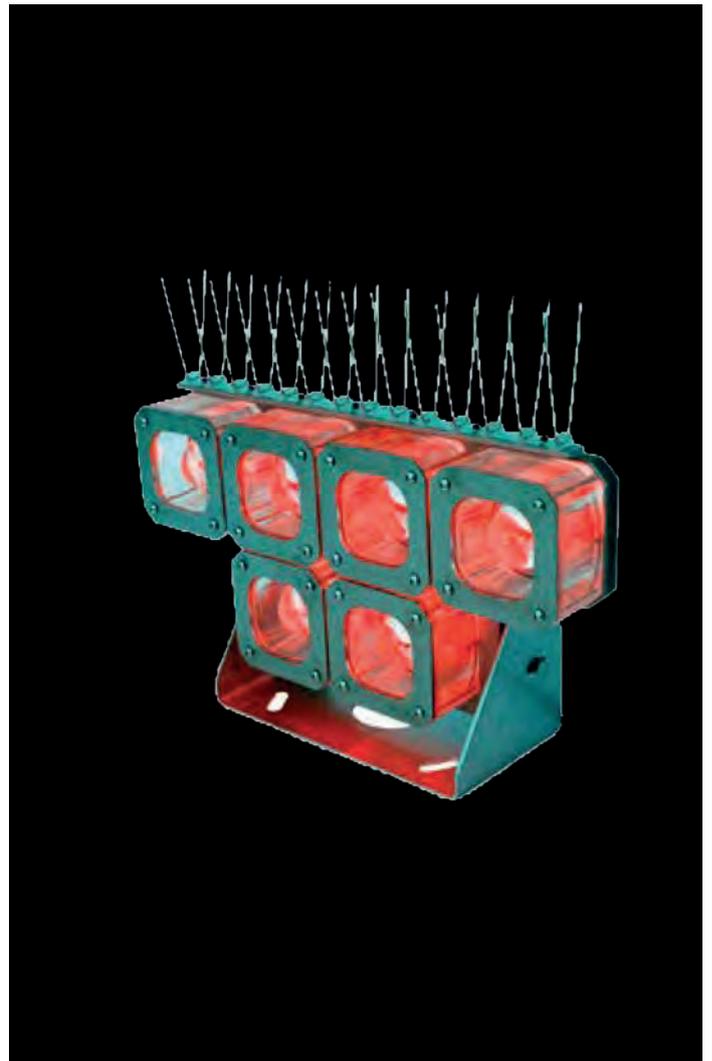

## VRL-74

13NM - 22 NM@ 0.74T

The VRL-74 is a LED range light operating through an optical grade acrylic lens. The horizontal and vertical profiles can be widened with the use of spreader lenses.

The standard offering for the VRL-74 comes in 1-6 different lenses and any of 5 colours depending on your requirements.

- Multiple effective intensity settings for both day and night operation
- Day/night transition level settings
- Programmable flash characters
- Synchronisation control, master/slave options
- Low voltage cut out
- Optional security code
- Automatic Schmidt-Clausen intensity correction for short flashes

## Optical Performance

Maximum peak intensity per optic

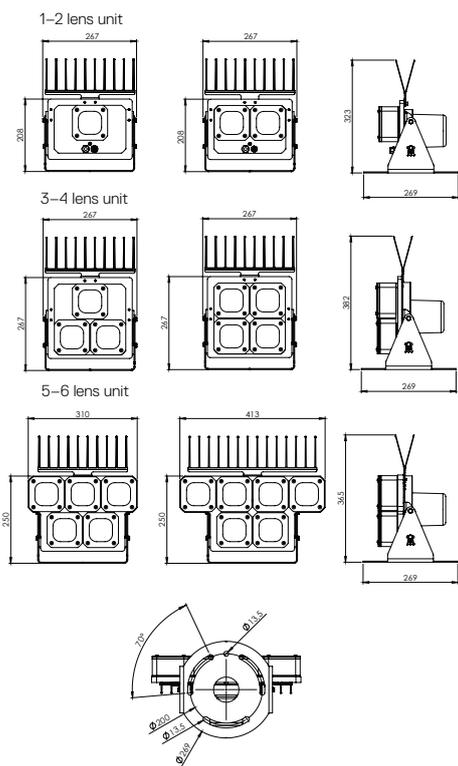

±1.5°	33000cd	37700cd	96000cd	33000cd	13600cd
-------	---------	---------	---------	---------	---------

## Optical specification

Light source	High Power Light Emitting Diode (LED)
Horizontal divergence	±1.5° (without spreader)
Vertical divergence	±1.5° (without spreader)

## Main Technical Specification

Nominal Range	Up to 24,2 NM
Lens	Machined cast acrylic
Base	304 SS
Body	Anodised marine grade aluminium
Weight	Single lens unit 4 kg Two lens unit 4.2 kg Three lens unit 5.2 kg Four lens unit 5.4 kg Five lens unit 6.1 kg Six lens unit 7.2 kg
Flash character	246 standars characters plus 1 custom character
Temperature range	-30° to +50°C
Voltage	12/24 VDC (10-30 VDC)
Solar charger	N/A
Degree of protection	IP 67
Cable length	2 m / 6 m

## VRL-91

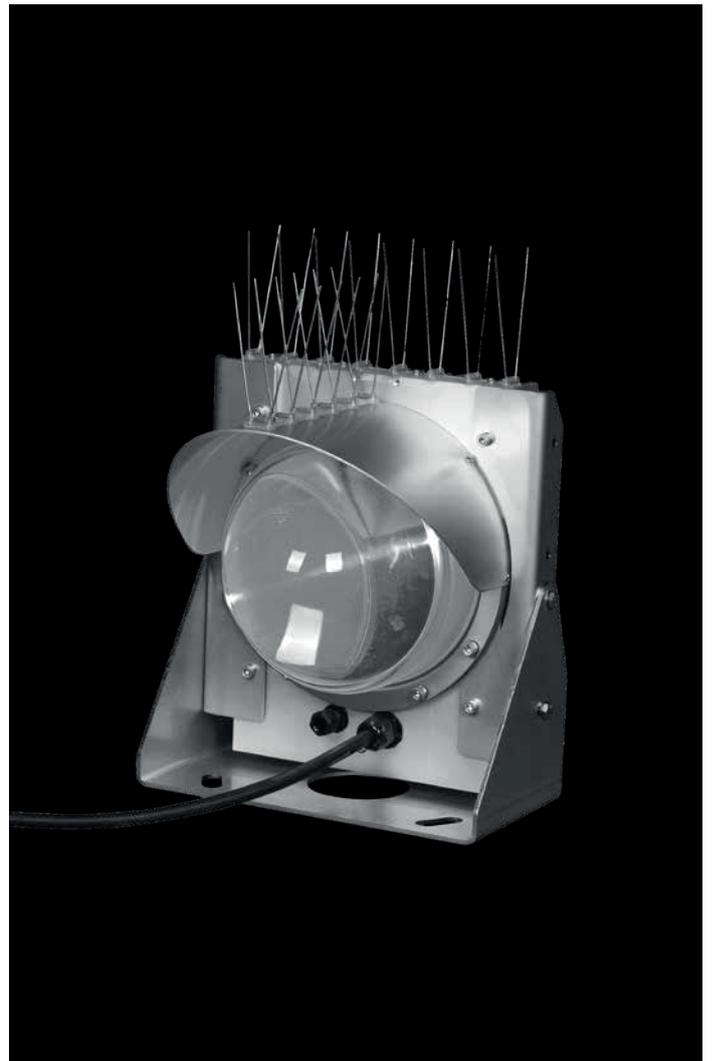

**5.4NM by day**  
**23NM by night**

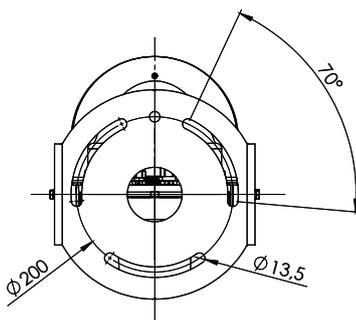

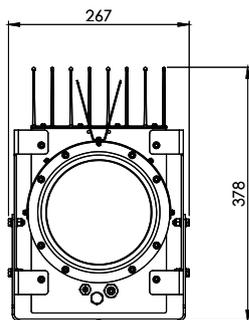

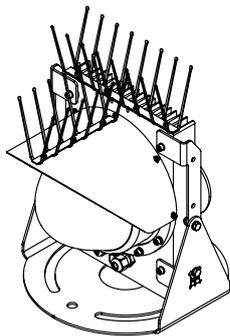

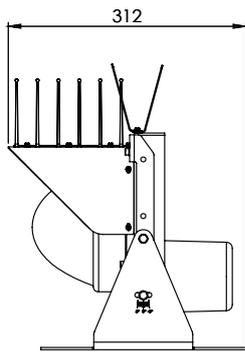

The VRL-91 high power LED range light forms part of the Vega LED marine beacon family and is intended for applications requiring very high intensity.

A single white VRL-91 lens using a single LED produces an intensity of up to 403000 candela, which provides a range of 23 NM at 0.74T with no background light.

Programming features (with IR remote programmer):

- **Automatic Schmidt-Clausen intensity correction for short flashes**
- **Multiple effective intensity settings for both day and night operation**
- **Day/night transition level settings**
- **Fully programmable flash characters**
- **One programmable custom character**
- **Synchronisation control including master/slave options and sync delay (optional)**
- **Supply voltage monitoring**
- **Programmable low voltage cut out**
- **RS-232 data port compatible (optional)**
- **Optional security code**

## LED 110

Marine LED lantern for buoys and small beacons

LED 110 is a maintenance free short range LED lantern. Using the latest in high power LED technology, Sabik's intelligent electronics and our especially designed efficient optics, we have been able to achieve an excellent performance for the lantern. LED 110 is made from polycarbonate for durability and low weight.

- Range up to 4 NM at Tc = 0,74  
(5 NM at Tc = 0,85)
- Standard IALA colours Red, Green, White and Yellow
- Produced of durable polycarbonate plastic
- Integrated flasher with day light switch and 2A solar charger
- Internal calendar; light can be switched off for winter
- Adjustable intensity and range
- Vertical divergence 8° @ 50 % ( $\pm 1^\circ$ ) of peak intensity
- Programmable with Sabik standard IR programming devices
- Integrated event log (Black box function) for 365 days
- Optionally integrated GPS synchronization
- Optionally integrated GSM remote monitoring

**Lens**  
Bird deterrent top design.

**Optical lens**  
New efficient omnidirectional lens.

**PTFE breathing**  
Vent for pressure release in the bottom of the lantern.

**Programming with PC**  
Using Sabik USB interface.

**Sabik Easy Programmer**  
User friendly and compact wireless two-way programmer.

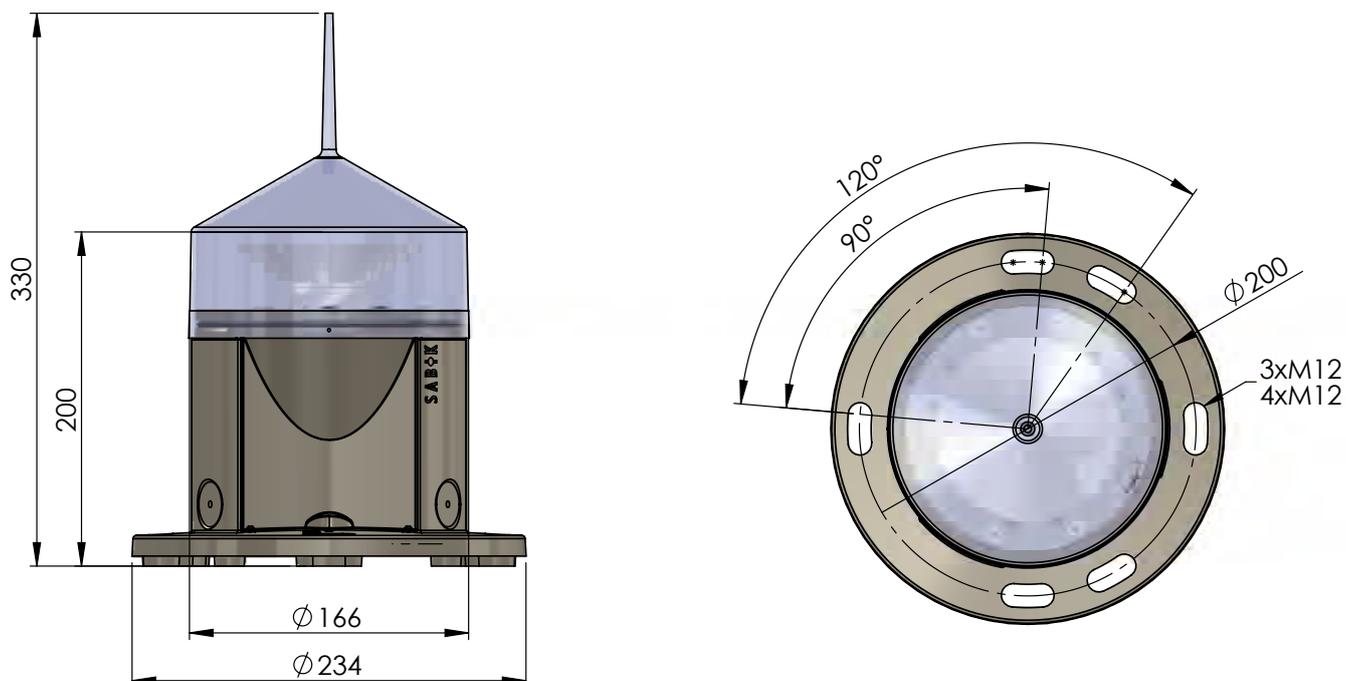

**Cable entry**  
From side or bottom of the lantern.

**Installation**  
The bottom plate of the LED110 supports installation on structure using 3 or 4 x M12 on a 200 mm diameter or 3 x M8 on a 150 mm diameter.

## LED 155EX

### Offshore lantern

LED 155EX is a LED lantern commonly used on offshore platforms. The lantern is maintenance free, compact and robust in design. LED 155EX is modular and can be delivered with up to 3 tiers.

LED 155EX is also available as a general purpose lantern for marking of obstacles. This version complies with ICAO Annex 14, Volume 1 and it can be configured with two different standard intensities depending on operational requirements.

- Range up to 8 NM at  $T_c = 0.74$  (12 NM at  $T_c = 0.85$ )
- ATEX category Zone 1 and Zone 2
- Standard IALA colours Red, Green, White and Yellow
- Rugged aluminium housing
- Extremely low power consumption, suitable for solar and battery operation
- Integrated flasher with a day light switch and an 8 Ampere solar panel charger
- Adjustable intensity and range
- Available with narrow (6°) or wide (10°) vertical divergence
- Cable synchronization between light units

Triplex, 18 W	336 cd	504 cd	675 cd	280 cd

#### Bird spikes

Stainless steel as standard. Easy to replace. Special spikes for protection against cormorants on request.

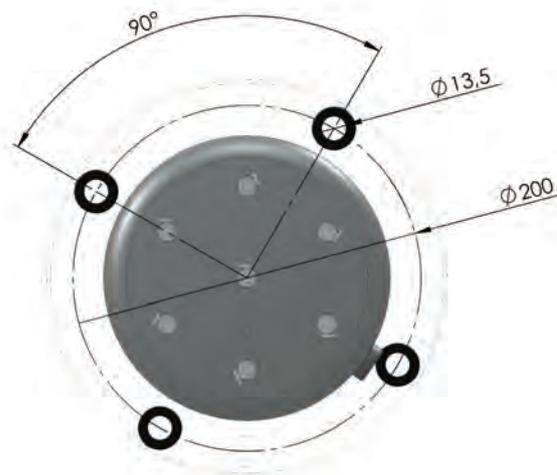

#### Additional cable entry

Equipped as standard with two cable entries. If the second entry is needed e.g. for cable sync or for a solar module a standard M20 cable gland can be fitted.

#### Grounding plug

The base plate has a grounding plug as standard to enable good protection for electromagnetic interference.

### Main Technical Specification

## VRB-25 LED

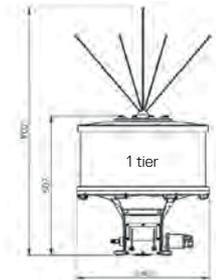

25NM @ 0.74T

The VRB-25 LED is a high intensity rotating beacon suitable for ranges up to 25 nautical miles. Being an LED beacon, it is extremely energy efficient and can be monitored digitally.

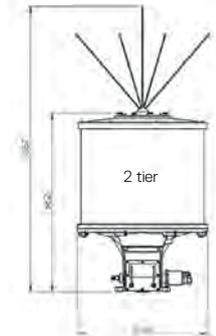

It is an ideal replacement for beacons with Fresnel lenses in historic lighthouses, or locations requiring intensities greater than what can be achieved with typical stationary beacons.

- **Weatherproof enclosure suitable for external mounting**
- **Maintenance-free LED**
- **Constant-current LED drivers**
- **Direct-drive brushless motor**
- **0.6 to 15.9RPM rotation speed with 240 increments**
- **Day and night intensity is adjustable from 0 to 100%**
- **Automatic day/night detection**
- **Optional security code**
- **Programmable low-voltage cut-out**
- **Selectable master/back-up operation mode**
- **Digital inputs/output**
- **RS232 port**

## VLB-92

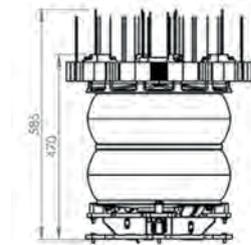

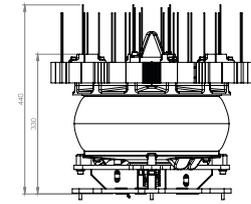

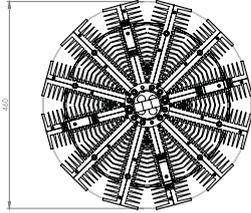

13NM - 22NM @ 0.74T

The VLB-92 is state-of-the-art long range LED beacon. It is intended for applications requiring very high intensity.

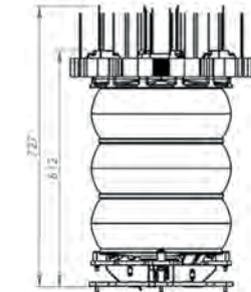

Depending on the configuration, the beacon is able to produce a range from 13-22NM at a transmissivity of 0.74T.

- **Effective intensity settings (5,800-240,000cd)**
- **Day/night transition level settings (40-250 lux range)**
- **Programmable flash characters, including IALA recommended characters**
- **Programmable custom character**
- **Synchronisation control including master/slave options and sync delay**
- **Synchronising delay can be set from 0 to 9.9 seconds**
- **Low voltage cut-out setting**
- **Optional security code**

## LED 350H

High Power LED lantern  
for fixed installations

A LED beacon capable of visual ranges up to 18 NM ( $T_c = 0,74$ ) 30 NM ( $T_c = 0,85$ ). LED 350H is designed to substitute rotating beacons with a considerably smaller power consumption.

- Up to 15.000 cd luminous intensity per tier at only 100 watts
- Can be supplied with up to 5 tiers. Max luminous intensity an impressive 75.000 cd
- Rugged aluminium housing for installation in marine environments
- Low power consumption, suitable for solar and battery operation
- Integrated flasher with daylight switch and a 16 A solar panel charger
- Field adjustable intensity and range
- Programmable with Sabik standard IR programming devices
- Integrated 365 day event log
- Optionally integrated GPS synchronization
- Optionally integrated GSM Remote monitoring
- Equipped with Bluetooth programming

#### Bird spikes

Stainless steel bird deterrents as standard. Easy to replace. Offers great protection.

#### Level indicator

The lantern can easily be levelled in field using the integrated bubble level indicator.

#### IR port and photocell

Combined infrared communication port and photocell is located on the base of the lantern.

#### Grounding plug

The base plate has a grounding plug as standard to enable good protection against electromagnetic interference.

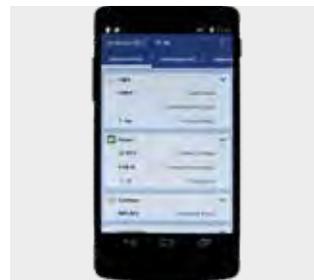

#### Additional cable entry

Equipped as standard with two cable entries. If the second entry is needed e.g. for a solar module standard M20 cable gland can be fitted.

#### Sabik Easy Programmer

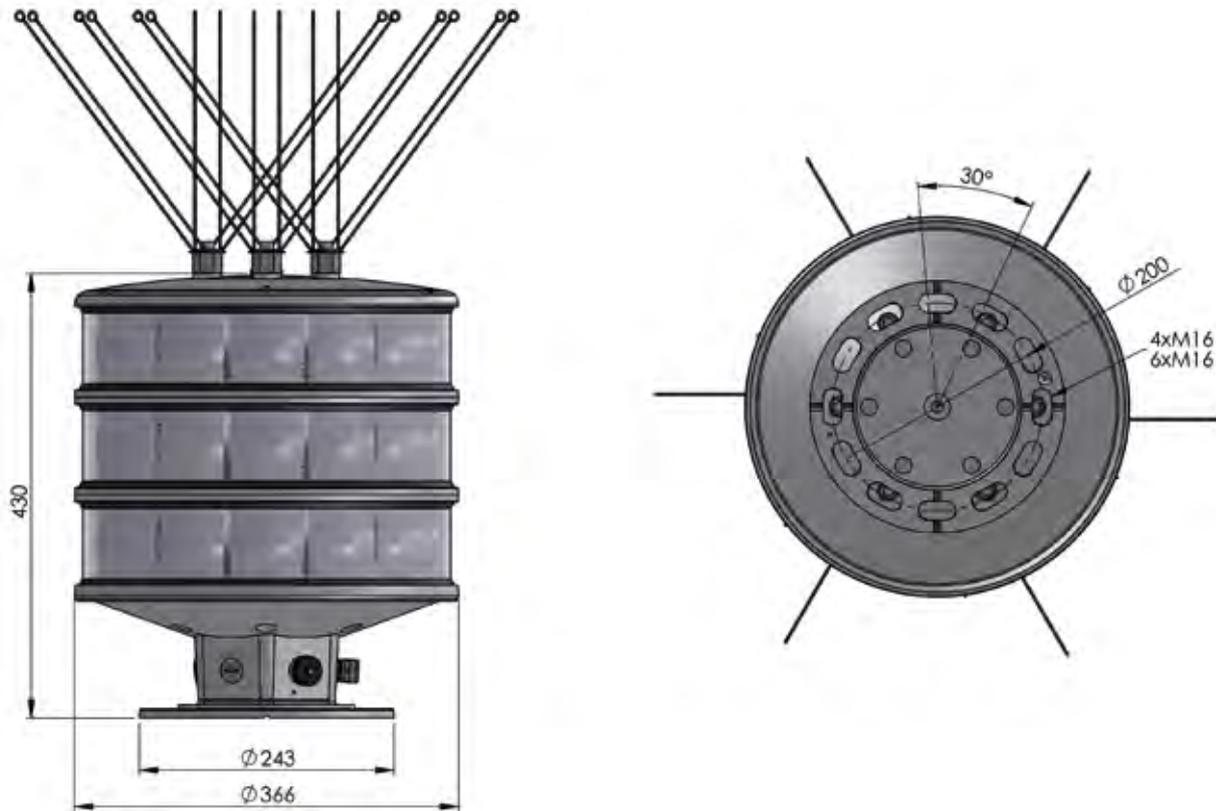

User friendly and compact wireless two-way programmer.

#### Bluetooth® Control

Lantern can be programmed and controlled up to 50 meters distance with standard android and iOS mobile phones.

## LED 350EX

High intensity LED lantern for offshore installations

LED 350EX is a high performance omni-directional LED beacon. The lantern is maintenance free, compact and robust in design. The lantern can be supplied with up to three tiers. A 1-tier LED 350EX has a range of 10 NM.

- With 3 tiers range up to  
13 NM at  $T_c = 0,74$   
19 NM at  $T_c = 0,85$
- ATEX category Zone 1 and Zone 2
- Standard IALA colours Red, Green, White, Yellow
- Rugged aluminium housing
- Extremely low power consumption, suitable for solar and battery operation
- Integrated flasher with a day light switch and an 8 ampere solar panel charger
- Field adjustable intensity and range
- Cable synchronization between light units

#### Bird spikes

Stainless steel bird deterrents as standard. Easy to replace. Offers great protection against large birds like cormorants. Spike design to prevent injury to service technicians.

#### Level indicator

The lantern can easily be levelled in field using the integrated bubble level indicator

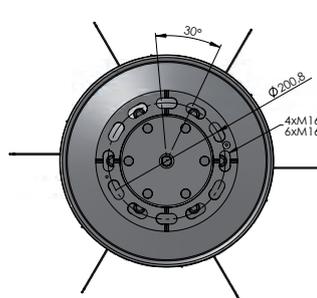

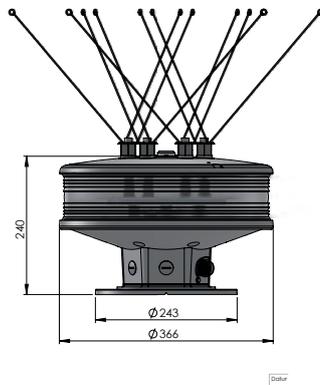

#### Grounding plug

The base plate has a grounding plug as standard to enable good protection for electromagnetic interference.

#### Additional cable entry

Equipped as standard with two cable entries. If the second entry is needed e.g. for cable sync or for a solar module a standard M20 cable gland can be fitted.

#### Installation

The bottom plate of the LED 350 supports installation on structure using 3 x M12 bolts or 4 x M12 bolts on a 200 mm radius. The mounting holes are galvanic isolated with plastic isolators. PTFE breathing vent for pressure release.

## LED 350

High intensity LED lantern  
for fixed installations

LED 350 is a high performance omni-directional LED precision beacon with a range up to 15 NM ( $T_c = 0,74$ ). 10 NM range with white achieved with less than 10 watts.

- High light efficiency;  
175 candela/watt
- Supplied with 1-7 tiers, max  
14 700 cd luminous intensity white
- Standard IALA colours Red, Green,  
White, Yellow
- Rugged aluminium housing for  
installation in marine environment
- Extremely low power  
consumption, suitable for solar  
and battery operation
- Integrated flasher with day light  
switch and a 16A solar panel  
charger
- Field adjustable intensity  
and range
- Programmable with Sabik  
standard IR programming devices
- Integrated 365 day event log
- Optionally integrated  
GPS synchronization
- Optionally integrated  
GSM remote monitoring
- Optionally available with tamper  
proof serial number
- Equipped with Bluetooth  
programming

**Bird spikes**

Stainless steel bird deterrents as standard. Easy to replace. Offers great protection against large birds like cormorants. Spike designed to prevent injury to service technicians.

**Level indicator**

The lantern can easily be levelled in field using the integrated bubble level indicator.

**IR port and photocell**

Combined infrared communication port and photocell is located on the base of the lantern.

**Additional cable entry**

Equipped as standard with two cable entries. If the secondary entry is needed e.g. for a solar module standard M20 cable gland can be fitted.

**Sabik Easy Programmer**

User friendly and compact wireless two-way programmer.

**Triplex**

Multiple tiers up to 7 tiers for high intensity.

**Installation**

The bottom plate of the LED 350 supports installation on structure using 3 x M12 bolts or 4 x M12 bolts on a 200 mm diameter.

**Grounding plug**

The base plate has a grounding plug as standard to enable good protection to against electromagnetic interference.

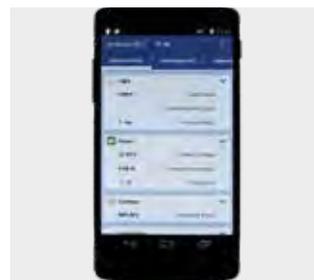

**External baffles**

The lantern can be optionally supplied with multiple colours using external radial baffles between the colours. This enables warning sectors to be integrated in the same lantern.

**Simplex Combinations**

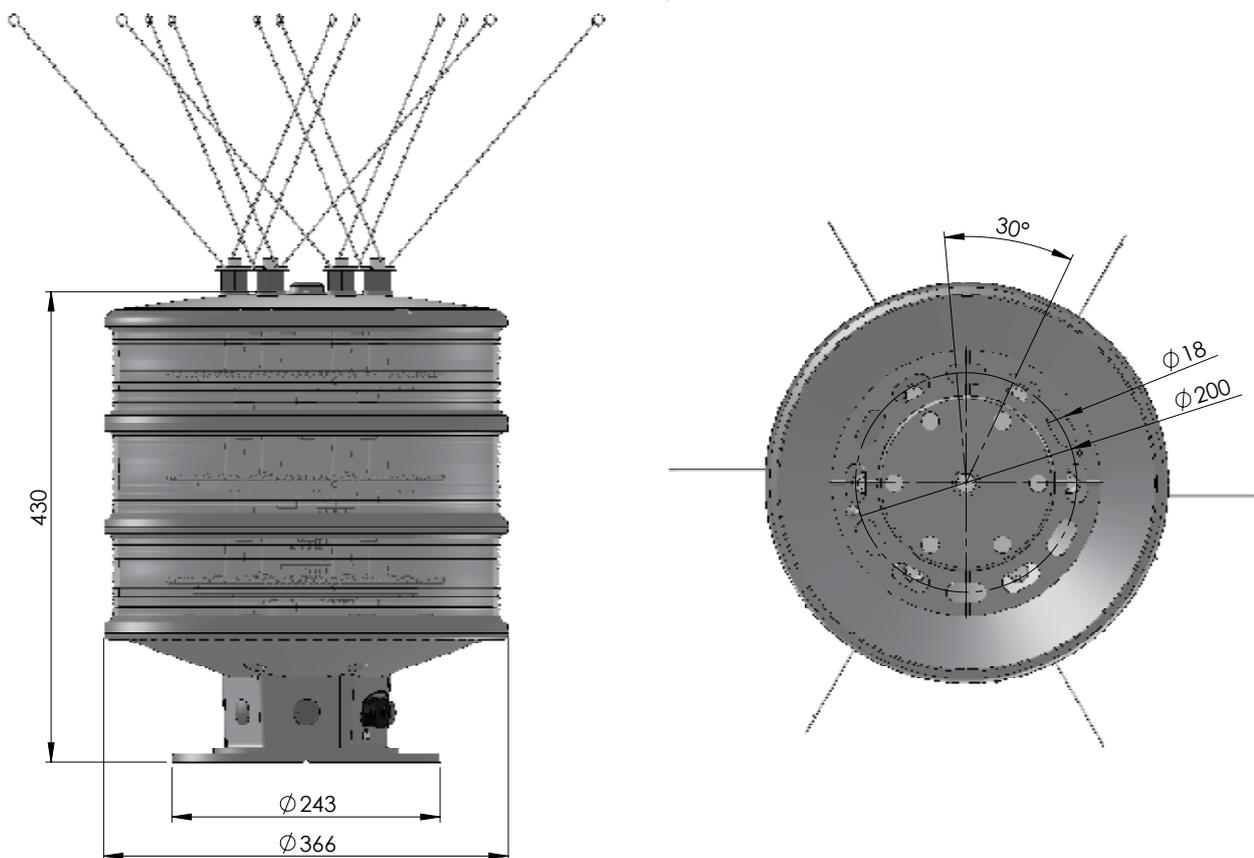

The LED 350 lantern can also be combined with the LED 155 buoy lantern in order to increase short distance visibility.

**Bluetooth® Control**

Lantern can be programmed and controlled up to 50 meters distance with standard android and iOS mobile phones.

### Optical performance

#### Maximum fixed luminous intensity

1-tier, 12 W	1.400 cd	1.400 cd	2.100 cd	1.500 cd
2-tiers, 24 W	2.800 cd	2.800 cd	4.200 cd	3.000 cd
3-tiers, 36 W	4.200 cd	4.200 cd	6.300 cd	4.500 cd
4-tiers, 48 W	5.600 cd	5.600 cd	8.400 cd	6.000 cd
5-tiers, 60 W	7.000 cd	7.000 cd	10.500 cd	7.500 cd
6-tiers, 72 W	8.400 cd	8.400 cd	12.600 cd	9.000 cd
7-tiers, 84 W	9.800 cd	9.800 cd	14.700 cd	10.500 cd

## Main Technical Specification

Lens visual/Mechanical diameter	350 mm
Lens material	UV stabilized Polycarbonate
Light source	Light Emitting Diodes (LEDs)
Vertical divergence	1.5° @ 50% (±0.3°) and 3° @ 10% (±0.5°) of peak intensity
Unit lifetime	Up to 10 years
Weight	10 kg for single tier unit, add 2 kg for each tier
Temperature range	-40°...+60°C
Supply Voltage	10 – 32 VDC
Solar Panel Charger	16 ampere PWM charger. Solar production (Ah) is logged
Power consumption	12 watts / tier
Degree of protection	IP 67

## Order Overview LED 350

### Option matrix

OPT 1: Optical Feedback System	Integrated LED performance measurement
OPT 4: GPS sync	Integrated GPS sync excluding GPS antenna
OPT 7: External GPS	External GPS antenna for OPT 4
OPT 9: LightGuard GSM + GPS	Integrated GSM based monitoring including GSM antennas
OPT 10: LightGuard GSM	Integrated GSM based monitoring including GSM antenna
OPT 11: Control card	Control card for secondary battery
OPT 12: Aux card with I/O	Aux card including I/O ports
OPT 13: Aux card with RS485 and I/O	Aux card including RS 485 and I/O port
Shock & Tilt Sensor	Integrated 3-axis G sensor for tilt and shock sensing
External baffles	External baffles when unit is supplied with coloured sectors

single tier (standard)		Two tiers (duplex)		Three tiers (triplex)	
<b>Red</b>	LED 350 1R	<b>Red</b>	LED 350 2R	<b>Red</b>	LED 350 3R
<b>Yellow</b>	LED 350 1Y	<b>Yellow</b>	LED 350 2Y	<b>Yellow</b>	LED 350 3Y
<b>Green</b>	LED 350 1G	<b>Green</b>	LED 350 2G	<b>Green</b>	LED 350 3G
<b>White</b>	LED 350 1W	<b>White</b>	LED 350 2W	<b>White</b>	LED 350 3W

### Product code example: LED 350 3W.10

- **LED 350 7** is Sabik code for a seven-tier LED 350
- **W** is the code for a lens in white
- **10** is a selection of option 10 integrated GSM antenna
